

# Diabetes Care

## We help patients stay healthy and manage their diabetes with a full range of products and services.

Our pharmacy specializes in helping patients with diabetes take their medications effectively and monitor their daily health. We can provide support, education and tools not only for patients, but also for caregivers or other family members who may be involved with care.

With a focus on counseling, education and personal attention, as well as a broad offering of top-quality diabetes products, we can help your patients maintain a healthy regimen between doctor visits. You can be more confident that your patients are staying compliant with the course of treatment you've prescribed, and focus your time and attention on helping them address any critical medical issues during appointments.

## Personalized diabetes care and support for your patients

- Insulin therapy, adherence counseling, and glucose monitor education and support
- Diabetes education: explaining test results, setting and tracking health goals, teaching about diet and exercise

- Convenient one-stop shopping for all diabetes products with our in-store Diabetes Life Center — including diabetes shoes, inserts and socks
- Most insurance plans accepted, with the same co-pay as chains
- Medicaid billing for diabetes testing supplies and more
- Convenient home delivery and 24-hour emergency support
- Competitive prices every day

Our trained pharmacists and staff also offer medication consultations, blood sugar screening and other supportive wellness services.
